## Female Teachers, Tertiary Education (As % Of Total)

Tertiary education, teachers (% female) is the share of female teachers in tertiary education.

There are many similarities and differences among teachers around the world. In almost all countries teachers are educated at a university or college. Governments may require certification by a recognised body before they can teach in a school.

In many countries, an elementary school education certificate is earned after the completion of high school. The high school student follows a specialised education track, completes the required "student-teaching" time, and receives a special diploma to begin teaching after graduation

## Podíl učitelek v terciárním vzdělávání (jako % z celku)

Podíl učitelek v terciárním vzdělávání je podíl žen učitelů na vysokých školách.

Existuje mnoho podobností a rozdílů mezi učiteli na celém světě. Téměř ve všech zemích jsou učitelé vzděláváni na univerzitě nebo vysoké škole. Vlády mohou vyžadovat osvědčení od uznaného subjektu dříve než mohou učitelé učit na škole.

V mnoha zemích je certifikát pro základní vzdělávání získán po absolvování střední školy. Student střední školy navazuje studiem vlastního oboru, získávajíc nezbytný předpoklad praxe výuky studentů a poté obdrží zvláštní diplom, aby mohl po ukončení studia začít učit.
